

Energizer CHVCMWB-6 Recharge Value Battery Charger with 4 AA and 2 AAA Rechargeable Batteries

Energizer CHVCMWB-6 Recharge Value Battery Charger with 4 AA and 2 AAA Rechargeable Batteries

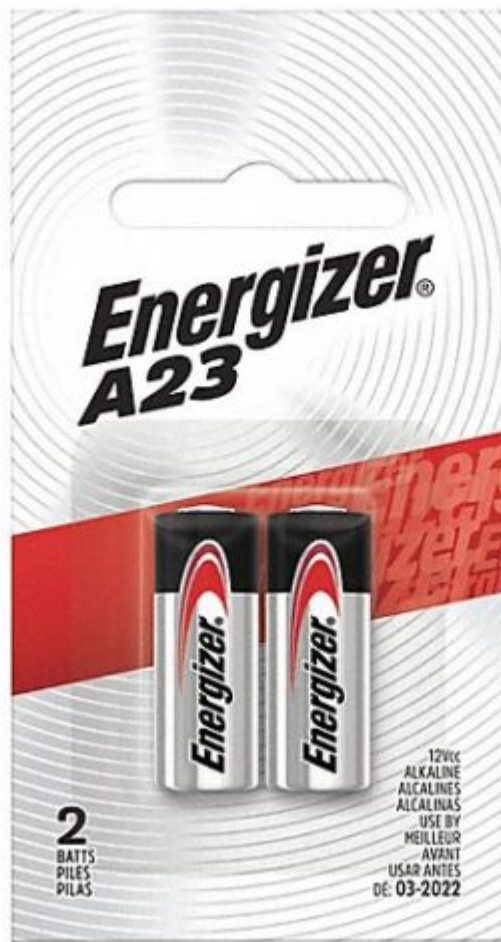

- Charges AA and AAA NiMH (nickel metal hydride) batteries
- Automatically turns off when batteries are fully charged
- Durable construction for reliable performance

The Energizer Recharge Value Battery Charger for NiMH Rechargeable AA Batteries and AAA Batteries is a solid value when it comes to charging your rechargeable AAA batteries and AA batteries. This AA and AAA battery charger has four slots and charges 2 or 4 rechargeable batteries with a 8-hour charge time. Auto shutoff and overcharge protection on this AAA and AA battery charger allow safe charging for long lasting batteries. Use this battery wall charger at home to

power NiMH rechargeable batteries for all types of gadgets. This Energizer battery charger has an easy-to-read LED display to show the charging status with a red light to indicate it's charging and green to show it's done. A bad battery indicator light on the rechargeable battery charger shows you when your batteries go bad. Energizer is the world's #1 rechargeable brand.

- One Energizer Recharge Value Battery Charger for NiMH Rechargeable AA Batteries and AAA Batteries
- Value battery wall charger charges NiMH rechargeable batteries in 8 hours for long lasting batteries
- Use this charger to recharge batteries for all types of electronics
- Battery charger has 4 slots for rechargeable AAA batteries and AA batteries
- Built-in, fold-out plug makes this battery charger easy to store when not in use
- Compatible with all AAA or AA NiMH rechargeable batteries (Energizer Recharge batteries recommended)
- World's #1 recharge brand (according to market survey data)

Energizer A23BP-2 Batteries, 2pk

Energizer A23BP-2 Batteries, 2pk

Special devices require a special level of energy: that's why our zero-mercury Energizer A23 specialty batteries deliver dependable power for all your gadgets. Whether it's for your Bluetooth headsets, game controllers, cameras, or medical devices, you'll be confident in making the right A23 miniature Alkaline Battery choice with Energizer. Try them out and see how these miniature batteries go big when it comes to long-lasting performance.

- For electronics around the house like keyless entry, electronic books and glucose monitors
- Replacement for 1181A, A23BP, DL21, DL23, MN-21B, MN21, V23GA
- Advanced engineering and state-of-art manufacturing
- Longer life and consistently reliable performance

Energizer EL123A 3-Volt Photo Lithium Battery

Long-lasting batteries designed for today's cameras/flashlights. Lasts longer than a regular alkaline battery.

Energizer L91BP4 Photo Lithium Batteries

Weigh 1/3 less than standard alkaline batteries. Perform in extreme temperatures from -40°F to 140°F.

Energizer EN93 Industrial C Battery, 12/pk

Energizer EN93 Industrial C Battery, 12/pk

- Long-Lasting Performance in the widest range of devices
- Up to 7-year shelf life
- 1.5 Volt
- No added mercury or cadmium
- Batteries are excluded from free shipping.

Classification: Alkaline

Chemical System: Zinc-Manganese Dioxide (Zn/MnO₂)

Designation: ANSI-14A, IEC-LR14

Nominal Voltage: 1.5 volts

Nominal IR: 150 to 300 milliohms (fresh)

Operating Temp: -18°C to 55°C (0°F to 130°F)

Typical Weight: 66.2 grams (2.3 oz.)

Typical Volume: 26.9 cubic centimeters (1.6 cubic inch)

Jacket: Plastic Label

Shelf Life: 10 years at 21°C

Terminal: Flat Contact

Price per box of 12

\$.84 each x box of 12 = \$10.08

Energizer EN93 Data Sheet

Our battery pricing is extremely competitive for bulk purchases. Call for quantity pricing & special shipping rates.

Energizer EN95 Industrial D Battery, 12/pk

Energizer EN95 Industrial D Battery, 12/pk

- Designed for today's heavy current or continuous applications
- No mercury added.
- No special disposal required
- Operate well in temperature extremes (-30C – 55C).

- Excellent shelf life
- Batteries are excluded from free shipping.

Classification: Alkaline

Chemical System: Zinc-Manganese Dioxide (Zn/MnO₂)

Designation: ANSI-13A, IEC-LR20

Nominal Voltage: 1.5 volts

Nominal IR: 150 to 300 milliohms (fresh)

Operating Temp: -18°C to 55°C (0°F to 130°F)

Typical Weight: 144.0 grams (5.1 oz.)

Typical Volume: 56.0 cubic centimeters (3.4 cubic inch)

Jacket: Plastic Label

Shelf Life: 10 years at 21°C

Terminal: Flat Contact

Price per box of 12

\$1.19 each x box of 12 = \$14.28

Energizer EN95 Data Sheet

Our battery pricing is extremely competitive for bulk purchases. Call for quantity pricing & special shipping rates.

Energizer EN22 Industrial 9 Volt Battery, 12/pk

Energizer EN22 Industrial 9 Volt Battery, 12/pk

Energizer® Alkaline batteries are available in a wide variety of sizes to fit most applications and operate well in extreme temperatures, and they can be stored for a up to 7 years before use.

Classification: Alkaline

Chemical System: Zinc-Manganese Dioxide (Zn/MnO₂)

Designation: ANSI-1604A, IEC-6LR61

Nominal Voltage: 9.0 volts

Operating Temp: -18°C to 55°C (0°F to 130°F)

Typical Weight: 45.6 grams (1.6 oz.)

Typical Volume: 21.1 cubic centimeters (1.3 cubic inch)

Jacket: Metal

Shelf Life: 5 years at 21°C

Terminal: Miniature Snap

Price per box of 12

\$1.59 each x box of 12 = \$19.08

Batteries are excluded from free shipping.

Energizer EN22 Data Sheet

Our battery pricing is extremely competitive for bulk purchases. Call for quantity pricing & special shipping rates.

Energizer EN92 Industrial AAA Battery, 24/pk

Energizer EN92 Industrial AAA Battery, 24/pk

- \$.36 each x 24 \$8.64
- Long-Lasting Performance in the widest range of devices
- Up to 7-year shelf life
- 1.5 Volt

- No added mercury or cadmium
- Batteries are excluded from free shipping.

Classification: Alkaline

Chemical System: Zinc-Manganese Dioxide (Zn/MnO₂)

Designation: ANSI-24A, IEC-LR03

Nominal Voltage: 1.5 volts

Nominal IR: 150 to 300 milliohms (fresh)

Operating Temp: -18°C to 55°C (0°F to 130°F)

Typical Weight: 11.5 grams (0.4 oz.)

Typical Volume: 3.8 cubic centimeters (0.2 cubic inch)

Jacket: Plastic Label

Shelf Life: 10 years at 21°C

Terminal: Flat Contact

Price per box of 24

\$.36 each x box of 24 = \$8.64

Energizer EN92 Data Sheet

Our battery pricing is extremely competitive for bulk purchases. Call for quantity pricing & special shipping rates.

Energizer EN91 Industrial AA Battery, 24/pk

Energizer EN91 Industrial AA Battery, 24/pk

- \$8.64 per 24/pk = \$.36 each
- Long-Lasting Performance in the widest range of devices
- Up to 7-year shelf life
- 1.5 Volt
- No added mercury or cadmium
- Economical power for modern devices that demand high power and are heavily used.
- 1.5 v
- Batteries are excluded from free shipping.

Classification: Alkaline

Chemical System: Zinc-Manganese Dioxide (Zn/MnO₂)

Designation: ANSI-15A, IEC-LR6

Nominal Voltage: 1.5 volts

Nominal IR: 150 to 300 milliohms (fresh)

Operating Temp: -18°C to 55°C (0°F to 130°F)

Typical Weight: 23.0 grams (0.8 oz.)

Typical Volume: 8.1 cubic centimeters (0.5 cubic inch)

Jacket: Plastic Label

Shelf Life: 10 years at 21°C

Terminal: Flat Contact

Price per box of 24

\$.36 each x box of 24 = \$8.64
