

“My Favorite Flashlight”-Quotes from people who use them

My favorite flashlight is the Nebo BAT-Light. The bat shape and almost 2 pound weight gives me a means to strike back if attacked. I really feel I have a means of self-defense while carrying it. Besides, it's an incredibly bright light: -long distance range, and that strobe light is very powerful. It comes with good Duracell batteries which seem to last forever.

I love it so much that I even bought several for my daughters and their friends.

-Sherry-bought BAT-lights in-store
