NEBO FLT-0001 Torchy Rechargeable Flashlight

NEBO FLT-0001 Torchy Rechargeable Flashlight

Compact, High Lumen Rechargeable Flashlight

The rechargeable TORCHY features Smart Power Control, which allows it to seamlessly transition through its 4 light modes and 1,000 lumen TURBO mode. The powerful magnetic base doubles as the magnetic charging port for the included USB MagCable, and the removable clip provides easy carry or hands-free use as a cap light.

POWER IN YOUR POCKET.

This isn't your average everyday carry flashlight. Put the TORCHY into turbo mode and it becomes an incredibly bright tool that could go twelve rounds with lights five times its size. At only 2.64 inches long, it just might be, inch for inch, the brightest flashlight in the world.

LIGHT MODES

- Turbo (1000 lumens) – 30 second intervals* / 130 meters

- High (500 lumens) – 1 hour / 100 meters
- Medium (200 lumens) – 1.75 hours / 60 meters
- Low (50 lumens) – 6 hours / 30 meters
- Strobe (500 lumens) – 1 hour / 100 meters

*Turbo mode is designed to give you short bursts of power when you need it most. After 30 seconds, the light will return to the previously used mode to prevent the light from overheating and protect the battery. Turbo mode can be reactivated at any time.

DESIGN

- Rechargeable
- Anodized aircraft-grade aluminum; water and impact-resistant
- Smart Power Control
- Removable steel belt/pocket clip
- Power Memory Recall

ACCESSORIES

- MagDock USB charging cable included

BATTERY

- Powered by included lithium ion rechargeable battery (16340, 3.7V, 700 mAh)
- Recharge time: ~2 hours, depending on output of USB

DIMENSIONS

- Weight: 0.1375 lbs.
- (H) 2.64" x (W) 0.98" x (D) 1.18"

Nebo POC-0005 INSPECTOR RC

Nebo POC-0005 INSPECTOR RC

The NEBO INSPECTOR™ RC is a powerful 360 lumen rechargeable, waterproof (IP67) penlight. The INSPECTOR™ RC features FLEX-POWER and is equipped with a removable steel clip, 4x zoom and 3 light modes (high, low, strobe) and Soft-Touch Technology, which provides momentary operation when the light is off, with the slight touch of the button.

Nebo FLT-0008 REDLINE X

Nebo FLT-0008 REDLINE X

The REDLINE X is a powerful waterproof (IPX7), rechargeable, 1,800 lumen flashlight that features 4x zoom and Switch-X Technology, which uses a patented paddle switching mechanism to operate the power, mode selection and instant activation for TURBO and Variable Strobe Modes. This light is perfect for any Emergency Kit or disaster scenario.

Nebo WLT-0006 SLYDE+ Flashlight Worklight, AAA Batteries

Nitecore TM10K Rechargeable LED Flashlight

Nitecore TM10K Rechargeable LED Flashlight

- Compact size, high-tech features, sleek modern styling, and powerful output—the **Nitecore TM10K Rechargeable LED Flashlight** checks all the boxes for form and performance. Powered by a built-in 4800mAh 21700 battery, the TM10K runs six Cree XHP35 HD LEDs and is engineered to dissipate their heat via a 4mm copper printed circuit board and a die-cast unibody cooling tube. The light is operated by side push-button switches for power and mode and a tail switch for instant access to turbo. The high power setting can be customized at anywhere from 400 to 2000 lumens in 100-lumen increments.

An OLED display shows battery voltage, remaining runtime, light temperature, and turbo duration (the 10,000-lumen turbo mode is meant for burst-style use and limited to 7 seconds' runtime.) There are two lockout modes: full, for when you're tossing the light in a backpack and don't want it to activate accidentally; and half, which leaves the tail turbo switch operational for pocket or holster transport when the light might be needed quickly. A blinking blue indicator beacon on the tail helps you find the light in the dark. The TM10K measures 4.3 x 1.6 x 1.2" and weighs 8.7 ounces.

- Ultra-low: 3 lumens
- Low: 100 lumens
- Medium: 300 lumens
- High: 1000 lumens (customizable-400 to 2000 lumens)
- Turbo: 10,000 lumens (limit 7 seconds)
- Six Cree XHP35 HD LEDs
- Precision Digital Optics Technology

Switching

- Dual power and mode push-button side switches
- Tail switch for instant access to turbo

Construction Details

- OLED display shows lumens, voltage, runtime, temperature, battery power
- Unibody cooling tube and 4mm copper circuit board for heat management
- Advanced Temperature Regulation circuitry
- Built-in 4800mAh 21700 battery with intelligent charging circuit
- Full and partial lockout modes
- Blinking blue location beacon on tailcap
- Pocket clip
- Type III hard anodized aluminum housing
- IP68-rated water resistant, submersible to 6.6'
- Impact resistant to 3.3'
- Measures 4.3 x 1.6 x 1.2", weighs 8.7 ounces
