

Hakko PD-03-D ESD-Safe Manual Desoldering Tool

Hakko PD-03-D ESD-Safe Manual Desoldering Tool

The Hakko PD-03-D manual desoldering tool provides a low cost and effective method for removal of residual solder during desoldering operations. With the press of a button, the spring activated vacuum system sucks the molten solder into the collection chamber, which is easily accessible for removal of solder and cleaning.

The PD-03-D is made of ESD Safe resins.
